

Workplace Giving with Multiple Sclerosis Limited (MSL)

What is Workplace Giving?

Workplace Giving allows you to make a regular donation to MSL directly from your gross salary, immediately reducing the amount of income tax deducted from your salary, with no need to keep any receipts. It's quick to set up and you can alter or cancel your donation at any time.

This form of giving is the most effective way to contribute and ensure there are adequate services and care available to people living with MS while the search for a cure continues. Not only does Workplace Giving decrease the tax you pay, but more of each dollar goes to MS services and care than other forms of fundraising.

How it works

Your support means that no one has to face MS alone. Thank you.
